PROGRAM OVERVIEW

The grants will be awarded for projects that improve or implement employee safety or risk reduction initiatives targeted at reducing workers' compensation exposures. The program objective is to encourage and support Member efforts in developing innovative safety-sensitive projects while mitigating the costs of developing, participating in or enhancing a risk reduction strategy, program or process.

HWCF will award up to \$100,000 in Grants. Grants will range up to a maximum of \$20,000 per facility and winners will be announced on May 24, 2023. Facilities may only submit one application.

The facility must include a budget for the proposed project. 50% of the funds shall be paid no later than May 24, 2023, and the remaining 50% will be paid after a review of the February 23, 2024, progress report (as outlined in the Grant application package), but no later than February 29, 2024.

An initial implementation report will be due three months after the project start date. Progress reports must be submitted, and outcomes must be measured at six months and one year. HWCF Loss Control Personnel will assist Grant recipients in the reporting process, if needed.

QUALIFICATION CRITERIA

PROCESS

To request a grant, organizations must complete the related application form. In completing the application, special attention should be paid to the requirements and criteria used in reviewing applications (see attached score sheets). The application must include a letter of support from the organization's CEO/Administrator and from senior leadership of each collaborating department, if applicable. To be eligible for consideration, applicants must submit all required materials, including a proposed budget.

Criteria will be scored by a team of independent reviewers using a competitive scoring process and related score sheets that speak to the criteria bulleted below.

- The problem statement clearly identifies a workplace initiative targeted at reducing occurrences and/or improving employee safety.
- The initiative represents a significant method of reducing workplace accidents.
- The problem/needs statement is supported with baseline data/statistics or evidence to justify the need to address the problem.
- Goal of the project reflects the overall end result of the project.
- Project objectives are realistic and appropriate for the project.
- Project objectives are measurable.
- Specific workplace hazard to be impacted by the project is addressed and appropriate.
- Activities (methods) to achieve objectives are reasonable for accomplishing the goals.
- Needed resources such as materials and personnel to carry out project are described.
- Desired project outcomes are described and represent an improvement in workplace safety which will positively impact liability exposure.
- All collaborating departments are identified, and their role is explained in the project development.
- Project timeline is provided and represents feasible progress toward completion.

- Project is easily adaptable for use by others.
- An appropriate team is identified to accomplish the project.
- Method for evaluation of the project's effectiveness is described. Evidence of data related to project and specific long- and short-term goals to improve processes and outcomes is demonstrated.
- Standard to determine success is stated (compliance rate/improvement in processes or outcomes).
- Leadership support is described to accomplish the project.

HWCF staff and selected independent reviewers will use a competitive scoring process to review proposals. Organizations will sign an agreement with HWCF to meet goals within the budget outlined in the proposal.

Organizations receiving funds will agree, as a condition of receiving a grant, to:

- Implement activity and program plan as outlined in the proposal
- Complete an initial, 6 month progress measurement, a final measurement outcome report and
- Share project information/outcomes with others

Applications must be received by midnight March 24, 2023. Grant winners to be announced May 24, 2023.
